UCAAS + CCAAS INTEGRATION

BYOC for Zoom Phone and Zoom Contact Center

Get the best of both worlds by bringing Bandwidth and Zoom together. Easily combine Bandwidth's owned-and-operated, all-IP voice network with the power of Zoom's robust communications solutions for employees and customers.

Discover the beauty of Bring-Your-Own-Carrier with Bandwidth + Zoom

CENTRALIZED EMPLOYEE COMMS AND CONTACT CENTER VOICE

When you unbundle voice from your Zoom Phone and Zoom Contact Center platforms, you can consolidate global telephony across services with Bandwidth as your trusted partner.

PEACE OF MIND MIGRATION TO THE CLOUD

Our pre-built integration with Zoom enables a smooth migration to the cloud and faster onboarding. Whether you're cloud-curious or mid-migration, Bandwidth gives you granular control over automated number porting and voice routing.

DIRECT-TO-CARRIER SAVINGS

Lower your costs by only paying for what you use. Pool usage across your enterprise for economies of scale, rather than limiting yourself to per-seat, per-month pricing.

99.999% VOICE CALLING UPTIME*

Give your employees and customers the resilient, reliable voice calling of a Tier-1 network that connects you to the PSTN in over 90% of the global economy.

SUPPORT YOU CAN COUNT ON

By partnering with Bandwidth, you get a direct line to our white-glove support and dedicated porting specialists. Customers love us—and our 97% CSAT score doesn't lie.

ZOOM Cloud Peering Partner

Trusted by Zoom for Over 10 Years

We purpose-built our network for communication leaders like Zoom. Now, the best and brightest enterprises are bringing Bandwidth as their carrier of choice for the scale, control, and coverage their communications platforms deserve.

- Platform-agnostic cloud connectivity with our award-winning Maestro solution
- 24/7/365 white-glove support
- A dedicated floor of porting specialists for your migration
- All-IP SIP trunking for your cloud-first future
- Bandwidth App & APIs for automated porting and triggering rollbacks
- Granular direct-to-carrier pricing for transparency and insights
