

# nuso BRIDGE for Zoom

## Reliable PSTN access in the Zoom Phone Client

-  Inbound, outbound, and toll-free calling  
Multiple E911 compliant solutions
-  User-friendly Management Portal to add or reassign numbers  
Network redundancy for reliability and disaster recovery
-  24/7 Zoom Certified Support

### NUSO and the Zoom™ Carrier Provider Exchange

NUSO Connects with Zoom as a Cloud Peering Partner.

Zoom customers can access the PSTN with NUSO. Phone, mobile, soft phone – all enjoy the same Zoom interface. NUSO delivers a transparent customer experience for improved calling. Businesses of all sizes choose Zoom for its state-of-the-art simplicity, scalability, robust security, and privacy features – values that align perfectly with NUSO.

### Zoom + NUSO Cloud Communications

Integrating NUSO calling into the Zoom Phone application delivers a feature-rich cloud phone solution for organizations of all sizes. It is fast and easy to deploy and use on desktop, laptop, mobile, or desk phones. Zoom customers can enjoy the quality, reliability and cost-saving benefits of the NUSO Network in their Zoom Phone client, including the award-winning NUSOflex, the only industry solution that automatically routes calls around local, inbound voice impairments.

NUSO Bridge for Zoom can be found in the Zoom App Marketplace or contact NUSO for a quick, reliable implementation.
