contactspace 4zoom

Make efficient, compliant outbound contact, with Zoom Contact Center

Integrates Natively With Zoom

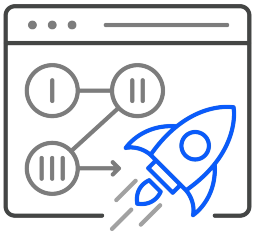

contactSPACE integrates natively with Zoom Contact Center, making for a seamless, intuitive admin and agent experience

Proven Outbound Technology

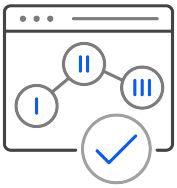

Our team has decades of outbound experience, and contactSPACE solutions are used to facilitate millions of outbound calls each month

Fast, Easy, No Code Deployments

Create the right solution for your business needs quickly and easily, and go live faster - including with options for powerful no-code deployments

Core Functionality

Campaign management: easily create, monitor, and control outbound campaigns, and continually improve performance

Compliance control: ensure compliance with TCPA, Ofcom, GDPR, and any other rules & regulations

Auto dialers: make efficient contact with preview, progressive, predictive, and super dialing modes

Data orchestration: make the right call at the right moment, and achieve better outbound dialing results
